

EMANUELE RAGUSI

Biomedical & Management Engineer

✉ emanueleragusi@proton.me 📍 Turin, Italy ☎ +39 331 749 5100

PROFILE

Management engineering student at Polytechnic University of Turin, with a background in biomedical engineering and international academic experience in Germany. Combining analytical skills with a cross-functional perspective across finance, supply chain and project management. Seeking an international internship to apply these competencies in a fast-paced, international environment.

PROJECTS

Strategy | Polytechnic University of Turin

📅 04/2026 – 06/2026

- Acted as a CFO in a competitive business simulation involving 4 companies across 4 product segments.
- Developed and executed the financial strategy, ensured numerical consistency with the overall corporate strategy, and contributed to key investment and pricing decisions.

Biochemistry Lab | International Academic Experience

Ernst-Abbe-Hochschule Jena

📅 03/2024 – 08/2024 📍 Jena, Germany

- Worked in a structured laboratory environment following experimental protocols.
- Developed precision, documentation discipline, and analytical problem-solving.
- Collaborated in an international setting and adapted to a new working culture.

Physics II Lab | International Academic Experience

Ernst-Abbe-Hochschule Jena

📅 03/2024 – 08/2024 📍 Jena, Germany

- Completed three laboratory projects involving experimental activities, data collection, and analysis.
- Used Excel to process results and support technical reporting.
- Strengthened analytical thinking, reporting skills, and attention to detail in an international academic environment.

Economics Project

📅 10/2025 – 01/2026

- Conducted a comprehensive financial analysis of a pharmaceutical major, dissecting Balance Sheet and Cash Flow statements.
- Computed and interpreted key profitability ratios.
- Final mark: 3/3

Information Systems Optimization | SAP Signavio

📅 10/2025 – 01/2026

- Designed BPMN and UML models to optimize municipal processes for the City of Turin.
- Performed cost estimation analysis, reducing theoretical process inefficiencies.
- Final mark: 4/5

Reply Challenge | Coding Competition

📅 01/2022

- Collaborated under time pressure to solve optimization problems, enhancing problem-solving and teamwork capabilities.

EDUCATION

Erasmus+ Exchange Program

Hochschule Reutlingen

📅 09/2026 – 02/2027 📍 Reutlingen, Germany

M. Sc. in Management Engineering

Polytechnic University of Turin

📅 09/2025 – present 📍 Turin, Italy

Erasmus+ Exchange Program

Ernst-Abbe-Hochschule Jena

📅 03/2024 – 08/2024 📍 Jena, Germany

B. Sc. in Biomedical Engineering

University of Palermo

📅 09/2022 – 10/2025 📍 Palermo, Italy
